It has been 29 years since the National Annual Corporate Report Awards (NACRA) was established in 1990, with the main objective of recognising companies' corporate reporting excellence on a yearly basis. Since its establishment, NACRA has become the benchmark stakeholders associate with fair, transparent and informative corporate reporting, which has always been the underlying objective of its 3 organising bodies – the Malaysian Institute of Accountants (MIA), The Malaysian Institute of Certified Public Accountants (MICPA) and Bursa Malaysia Berhad.

The annual report plays a pivotal role in empowering the public to make sound investment decisions. There is a need for organisations to display transparency at all levels of reporting which further articulates the organisations' growth and future prospects and inspires confidence and trust among the stakeholders and market players alike.

We have seen many new value-adding elements incorporated in the annual report over the years, but the objectives of NACRA remain unchanged as we continue to echo our theme of '*Towards Accountability and Excellence*'. As NACRA continuously raises the bar on an organisation's corporate reporting, in particular with the introduction of the *Integrated Reporting Award* in 2017, we foresee that the transition into full-fledged integrated reporting will be a much smoother one when it eventually becomes an accepted market practice in the future.

The criteria for NACRA are consistently reviewed, improved and enhanced each year to ensure the adjudication process takes into account the ever-changing landscape of standards in corporate and financial reporting. We hope this will ultimately drive organisations to become leaders in our economy.

We look forward to your participation and support in realising the objectives of NACRA 2019.

BURSA MALAYSIA BERHAD

MALAYSIAN INSTITUTE OF ACCOUNTANTS

THE MALAYSIAN INSTITUTE OF CERTIFIED PUBLIC ACCOUNTANTS

# NACRA OBJECTIVES

- ◆ To promote greater and more effective communication by organisations through the publication of timely, informative, factual and reader-friendly annual reports.
- ◆ To recognise and encourage excellence in the presentation of financial and business information.
- ◆ To create public awareness of the objectives of organisations, their operations and their financial performance.
- ◆ To promote higher standards of corporate governance.

# NACRA HISTORY

NACRA's role in promoting excellence in annual corporate reporting has a long history in Malaysia. It started in 1985 with the launch of the Malaysian Corporate Report Awards (MACRA) which was jointly organised by The Malaysian Association of Certified Public Accountants (MACPA) and the Malaysian Institute of Management (MIM). In 1988, the Malaysian Institute of Accountants (MIA) and the Kuala Lumpur Stock Exchange (KLSE) collaborated to organise the National Annual Report Awards (NARA). In recognition that the two awards shared common objectives, 1990 saw the unification of the awards to become the National Annual Corporate Report Awards (NACRA) which was jointly sponsored by KLSE, MIA, MIM and MACPA.

Today, NACRA is the collaborative effort of Bursa Malaysia Berhad, Malaysian Institute of Accountants (MIA) and The Malaysian Institute of Certified Public Accountants (MICPA). Despite the changes in name and organisers, the objective of NACRA has remained the same to this very day, i.e. to promote excellence in annual corporate reporting.

NACRA not only gives public recognition of excellence in corporate reporting to companies listed on Bursa Malaysia but also non-listed corporations and other organisations. Apart from that, the use of attractive graphic designs in corporate reports is encouraged through the Presentation Awards. As the business world increasingly strives to achieve a social balance, the importance of corporate social and environmental reporting is not left out with the launch of the Environmental Reporting Award in 2000, which was renamed as the Corporate Social Responsibility Award in 2008, and subsequently as the Corporate Social Responsibility Reporting Award in 2013.

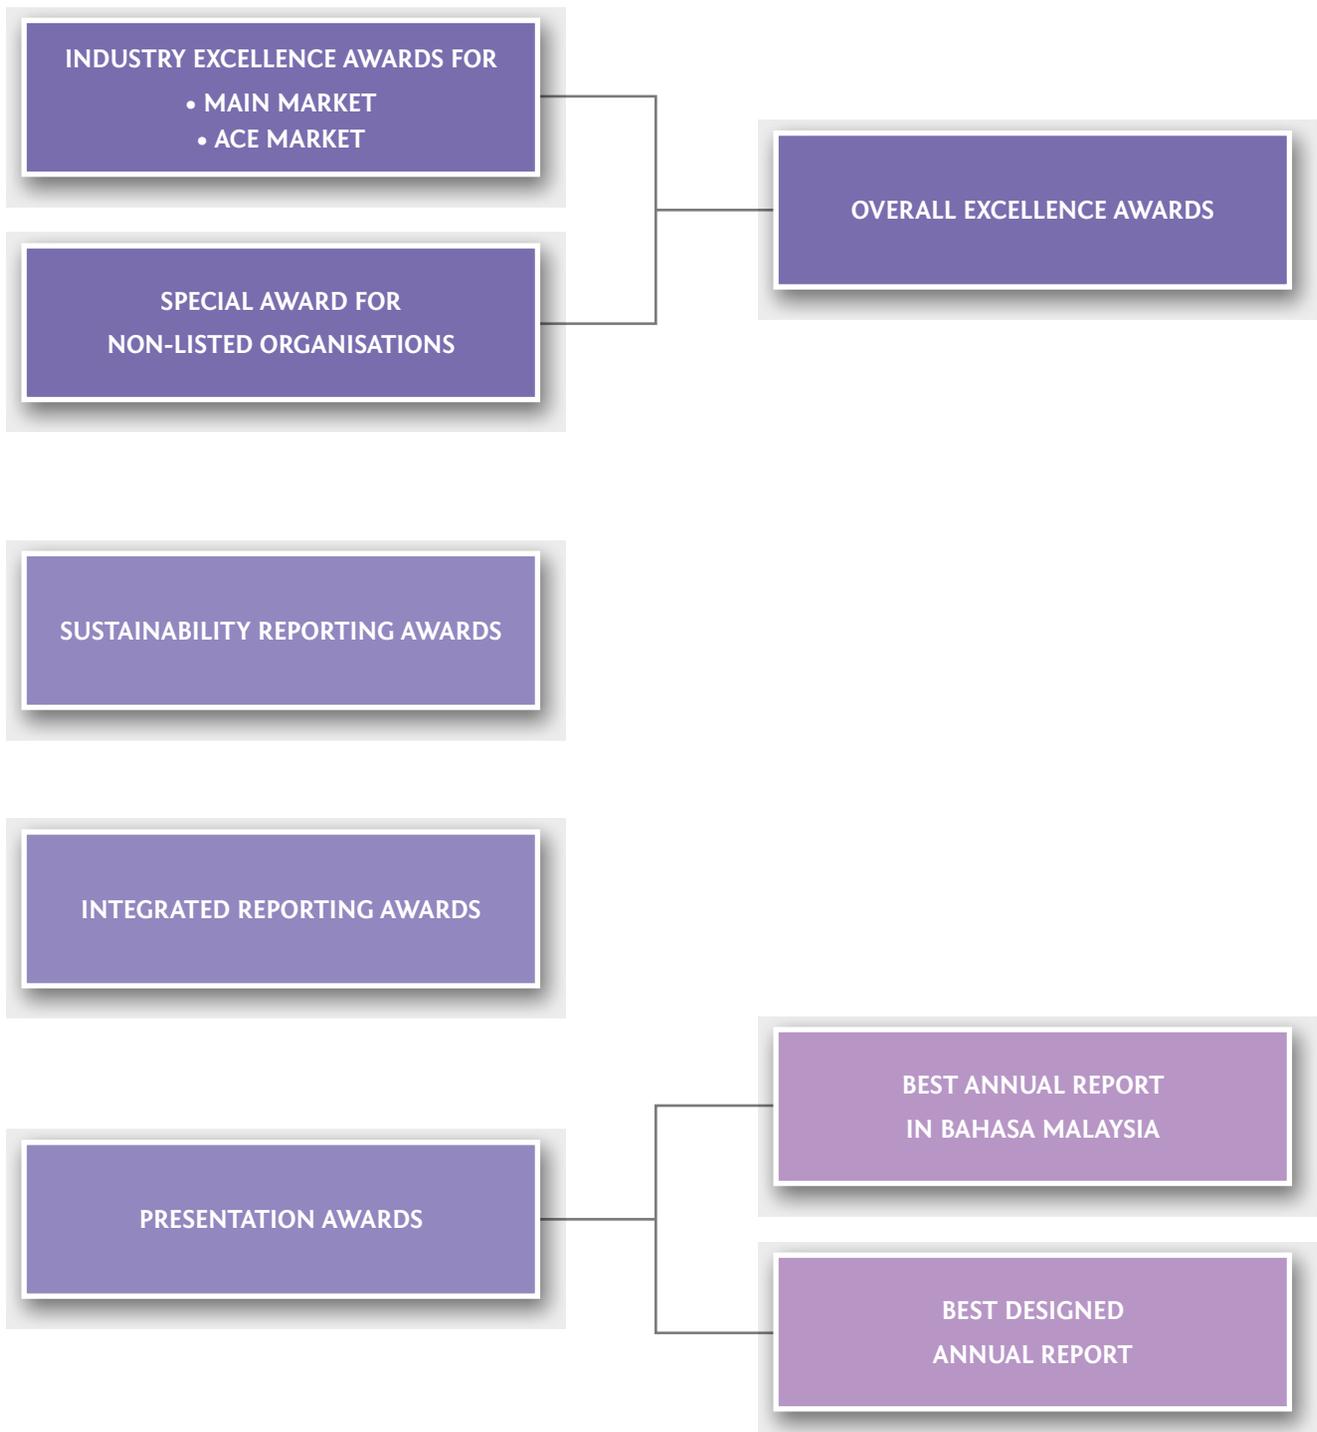

In late 2015, Bursa Malaysia amended its Main Market and ACE Market Listing Requirements in relation to the requirement to disclose a listed issuer's management of material economic, environmental and social risks and opportunities in its annual report. The amendment entails listed issuers to include a Sustainability Statement in the listed issuers' annual reports. The Sustainability Statement has replaced the reporting of Corporate Social Responsibility activities or practices by listed issuers.

NACRA in partnership with Talent Corporation Malaysia Berhad introduced an award category for Inclusiveness & Diversity Reporting which was launched in 2015. In view that the requirement for the Sustainability Statement had been fully implemented for all listed issuers' annual reports issued for financial years ending on or after 31 December 2018, NACRA had discontinued with Inclusiveness & Diversity Reporting Award effective NACRA 2019.

In 2017, NACRA introduced the inaugural Integrated Reporting Awards. Integrated Reporting focuses on bringing greater cohesion and efficiency to the reporting process, and adopting "integrated thinking" as a way of breaking down internal silos and reducing duplication. Adopting integrated reporting improves the quality of information available to investors to enable a more efficient and productive allocation of capital.

Since it was launched in 1990, the criteria for NACRA have continuously been reviewed and enhanced each year to encourage the disclosure of all material and relevant information beyond the statutory requirements. The stringent criteria have raised the standards and best practices in annual reports over the years.

NACRA comprises six categories of awards, namely the Overall Excellence Awards, Industry Excellence Awards for Listed Companies, Presentation Awards, Sustainability Reporting Awards, Integrated Reporting Awards and the Special Award for Non-Listed Organisations. With the exception of the Special Award for Non-listed Organisations, each category and sub-category will have a Platinum, Gold and Silver award.

These Awards will be presented to organisations in recognition of their high standards of reporting on their commitment and efforts to operating in an economically, socially and environmentally sustainable manner whilst balancing the interest of diverse stakeholders through transparent practices based on ethical values and respect for employees, communities and the environment.

## Integrated Reporting Awards

The Integrated Reporting <IR> framework was launched in 2013 with the intention of providing a guide for communicating how an organisation's strategy, governance, performance and prospects in the context of the external environment leads to the creation of value over the short, medium and long term. <IR> goes beyond the reporting of mere financial performance but involves the communication of the business strategies and business models which are of interest to the stakeholders.

The Integrated Reporting Awards are awarded to encourage the application of integrated reporting in Annual Reports in Malaysia.

## Special Award for Non-listed Organisations

To encourage the continuous improvement of annual reports of non-listed organisations as well as the public sector and other Malaysian organisations, a special award, "Best Annual Report of Non-Listed Organisations", will be presented to an organisation in this category which has achieved overall excellence in annual reporting.

# ADJUDICATION PROCESS

---

The adjudication process comes under the supervision and direction of an Adjudication Committee, which comprises five members. The award is given based on the annual report available, and the decision of the Adjudication Committee, with regard to the NACRA results, shall be final and binding.

The Sustainability Statement should contain information that is balanced, comparable and meaningful by referring to the Sustainability Reporting Guide issued by the Bursa Malaysia. In identifying the material economic, environmental and social risks and opportunities, the listed issuer should consider the themes set out in the Sustainability Reporting Guide.

In making the Sustainability Statement, a listed issuer must include disclosures on the following [Bursa Malaysia Practice Note 9, Part III (6)]:

## Integrated Reporting

The concept of “Integrated Reporting” was created by the International Integrated Reporting Council (“IIRC”) in 2011. With the rise of Integrated Reporting (<IR>) as a phenomenon that promotes a more cohesive and efficient approach that communicates the factors that affect an organisation’s ability to create value over time, <IR> was subsequently incorporated in the Corporate Governance Blueprint 2011 by the Securities Commission Malaysia and was also proposed in the Public Consultation Paper of the Malaysian Code on Corporate Governance 2016 under a category that organisations are encouraged to adopt.

The International Integrated Reporting Framework (“Framework”) sets out the principles and concepts that are focused on bringing greater cohesion and conciseness to reporting and adopting integrated thinking as a way of breaking down internal silos and increasing alignment across the organisation. It improves the quality of information available to providers of capital to enable a more efficient and productive allocation of capital. Its focus on value creation and the ‘capitals’ used by the business to create value over time, contributes to a more sustainable global economy.

An Integrated Report contains the following content elements:

- *Organisational overview and external environment* – What does the organisation do and what are the circumstances under which it operates?
- *Governance* – How does the organisation’s governance structure support its ability to create value in the short, medium and long term?
- *Business model* – What is the organisation’s business model?
- *Risks and opportunities* – What are the specific risks and opportunities that affect the organisation’s ability to create value over the short, medium and long term, and how is the organisation dealing with them?
- *Strategy and resource allocation* – Where does the organisation want to go and how does it intend to get there?
- *Performance* – To what extent has the organisation achieved its strategic objectives for the period and what is its outcome in terms of effects on the capitals?
- *Outlook* – What challenges and uncertainties is the organisation likely to encounter in pursuing its strategy, and what are the potential implications for its business model and future performance?
- *Basis of preparation and presentation* – How does the organisation determine what matters to include in the integrated report and how are such matters quantified or evaluated?

<IR> is an outcome of integrated thinking which takes account of connectivity and interdependencies between the factors that affect an organisation’s ability to create value over time. The above-mentioned content elements should be fundamentally connected to each other. An organisation should present an Integrated Report that demonstrates the interconnectivity of the factors that affect the organisation’s ability to create value over time in a sustainable manner.

The Framework can be downloaded at the link: <http://integratedreporting.org>
