***MAC Users: If you get the below message:**

"MIA e-Reader" can't be opened because it is from an unidentified developer.

You must follow the below steps:

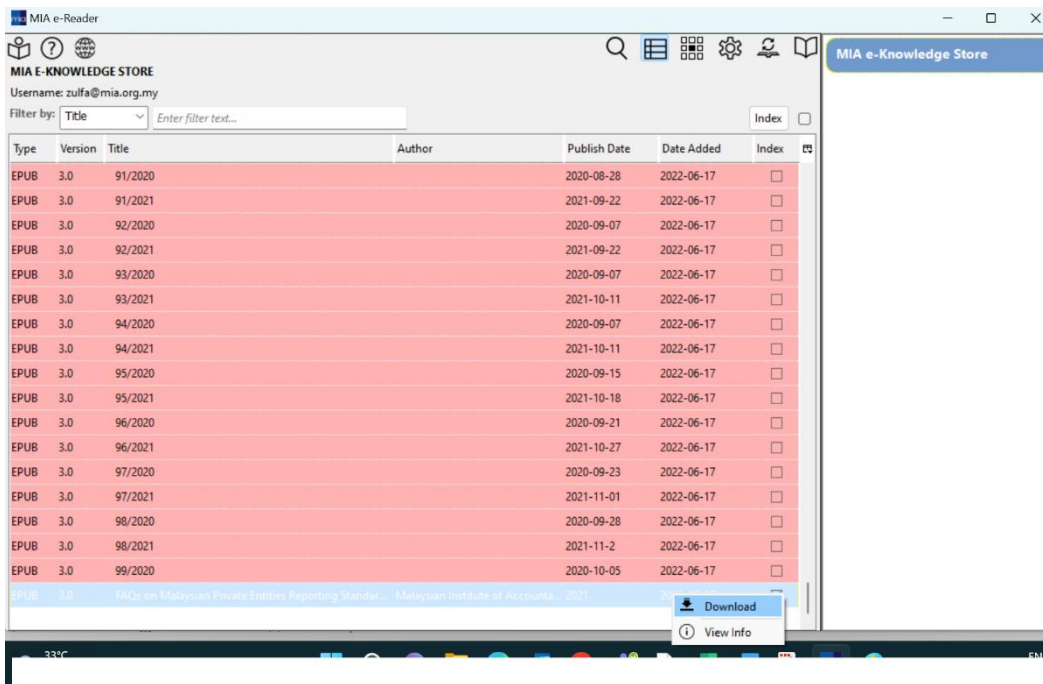

1. Go to System Preferences > Security & privacy > "General" tab > Under header "Allow apps downloaded from:" choose the radio button next to "Anywhere"
2. Now launch the application again, a dialog box will pop up again with the below message:
"MIA e-Reader" is an application downloaded from the Internet. Are you sure you want to open it?
3. Now click on "Open". Once the application is launched, you can then revert the settings back to default.

2. You may search by title or scroll to look for the **e-Books/e-Circulars**

The screenshot shows the MIA E-Knowledge Store interface. At the top, there are navigation icons and the store name. Below the navigation, the user's username is displayed as 'zulfa@mia.org.my'. A search bar is present with a dropdown menu set to 'Title' and a text input field containing 'Enter filter text...'. Below the search bar is a table listing various e-books. The table has columns for Type, Version, Title, Author, Publish Date, Date Added, and Index. The last row in the table is highlighted with a red border, indicating the selected item.
